### Note From the Diversity Liaison:

In an effort to keep all graduate and professional students abreast of diversity events happening throughout the university, I will be creating a monthly calendar detailing each event. If you are apart of an organization or if you know of a program that is happening within your college, please feel free to email me so that I may include it in the calendar. This is in no way an exhaustive listing of events for October, but highlights some of the larger programs offered.
